LOGO RULES

- Keep the supplied proportions and internal clear space.
- Use light artwork on pale surfaces and dark artwork on Deep Pine or dark surfaces.
- Do not recolor, stretch, rotate, outline, crop, or rebuild the artwork.
- Do not place the logo over busy imagery without a quiet contrasting field.
- Use the symbol only when the Clinizy Care name is already present nearby.
- Treat supplied SVG and PDF files as raster-backed compatibility exports, not editable vectors.

WHITE-LABEL BOUNDARY

Clinizy Care identity belongs to platform-owned marketing and product surfaces. Clinic names, uploaded logos, contact details, documents, and patient communication remain clinic-owned inside a tenant workspace.

Production note: supplied SVG and PDF logo files are raster-backed compatibility exports, not editable vector masters.
